

PDF - PRODUCTION OF SOAP AND DETERGENT THROUGH COID PROCESS - researchcub.info

ABSTRACT

Today in every market exists different types of soap and detergents. Some of them are not efficacious as advertised because the ingredients of such soaps are not always in right proportion and as such the efficacy of active ingredients is not rendered. It is now generally accepted that soap produced using linear alkyl benzene sulphonate has a high biodegradability effect. Based on this a high quality soap and detergent has been produced using L.A.B.S. the soaps and detergent produce compared with that of large scale industrial products (Omo) in terms of foamability and washability showed relatively equal degree of washability and foamability.

PRODUCTION OF SOAP AND DETERGENT THROUGH COID PROCESS

The complete project material is available and ready for download. All what you need to do is to order for the complete material. The price for the material is NGN 3,000.00.

Make payment via bank transfer to Bank: Guaranteed Trust Bank, Account name: Emi-Aware technology, Account Number: 0424875728

Bank: Zenith Bank, Account name: Emi-Aware technology, Account Number: 1222004869

or visit the website and pay online. For more info: Visit <https://researchcub.info/payment-instruct.html>

After payment send your depositor's name, amount paid, project topic, email address or your phone number (in which instructions will sent to you to download the material) to +234 70 6329 8784 via text message/ whatsapp or Email address: info@allprojectmaterials.com.

Once payment is confirmed, the material will be sent to you immediately.

It takes 5min to 30min to confirm and send the material to you.

For more project topics and materials visit: <https://researchcub.info/> or For enquiries: info@allprojectmaterials.com or call/whatsapp: +234 70 6329 8784

Regards!!!
